

AFIYA

Interior & Construction — Company Profile

Designing Spaces, Building Dreams.

About Us

Afiya Interior & Construction is a Dhaka-based design-and-build firm delivering turnkey interior, civil, renovation and facade engineering projects across Bangladesh. Under one accountable team, we combine architectural vision with disciplined project management and premium execution.

Our Services

01 — Interior Design & Execution

Space planning, 3D visualisation, custom joinery, lighting and turnkey finishing for homes, offices and hospitality.

02 — Civil Construction

RCC and steel-structure builds for residential, commercial and industrial clients, with tested materials and full MEP coordination.

03 — Repair & Renovation

Modernisation, retrofits and full remodels — clean execution with minimal disruption to occupied spaces.

04 — Facade Engineering

Curtain walls, structural glazing, ACP and stone cladding — engineered for Dhaka's wind loads and solar gain.

Certifications & Standards

We build to industrial standards including **LEED**, **ISO 9001 / 14001 / 45001** and **EDGE**, with documented QA/QC on every project.

Why Choose Us

- Single accountable team — design, engineering and construction under one roof.
- Transparent pricing and milestone-based reporting.
- In-house factory for custom joinery and metalwork.
- On-time handover with post-handover warranty.
